Introduction to Wishlist Member WooCommerce Members Discounts

Thank you for purchasing Wishlist Member WooCommerce Members Discounts!

Wishlist Member WooCommerce Members Discounts allows you to grant your existing members with special discounts for products you sell through WooCommerce based on the membership level/s they are registered to.

This means that only customers who are also registered to your membership site will benefit from the discount, while your regular customers will pay the regular price.

Exclusive Features:

- **The Price Changes Automatically** – The product's price changes automatically according to the user's status, so if he is a regular customer he will see that the product costs X and if he is also a member he will see price Y
- **Per Product Discount** – The products' discounts are set per-product inside the product's settings, this way you have full control over the price of each and every one of your products
- **Per Membership Level Discount** – Not only are the discounts set per-product, but inside each product you can set different discounts to different membership levels
- **Set Any Price You Want (Lower / Higher)** – You are not limited to only granting discounts, in the "Discount Amount" field you can choose ANY price you want, even a price that is higher than the regular product's price, so for example:
    - Product's regular price – $20
    - Basic level members pay – $25 / 125%
    - Premium level members pay – $15 / 75%
- **Fixed Price vs. Percentage Discount** – You can choose to set a fixed-price discount or a percentage of the price according to your needs
- **Supports Multiple Levels Users** – You can set the priority of each discount, so if your members are registered to more than one membership level they will get the discount according to the discount's priority

FAQS

In order to use Wishlist Member WooCommerce Members Discounts must I also purchase Wishlist Member WooCommerce Plus?

The short answer is No, Wishlist Member WooCommerce Members Discounts is a stand-alone plugin.

However, if you do want to integrate Wishlist Member and WooCommerce and sell membership levels through the WooCommerce platform then we highly recommend you to get Wishlist Member WooCommerce Plus as its purpose is to easily integrate Wishlist Member and WooCommerce in 1-Click and it allows you to keep track of all your membership products from one place.

You can go over all the benefits of Wishlist Member WooCommerce Plus and see how you can benefit from it in the product's page.

Can I set a higher price in the discounts tab?

Yes, you are not limited in any way to granting discounts, you can set different prices (fixed / percentage) to different membership levels so that some will even pay more than the product's regular price.

If members purchase multiple products with different priorities will this cause any conflict in calculating the prices in the cart?

No, because the member already sees the new price as it is calculated automatically with the discount, when he will add it to the cart, it will already include the appropriate discount.

Does the plugin have any conflicts with other plugins?

As far as we know, the plugin does not conflict with any other plugin. Wishlist Member WooCommerce Members Discounts a very strict code method so the chances that it's causing any problem are very low. If you have any problems or conflicts, please contact the support department.

What version of WooCommerce I need in order the plugin?

You will need to use WooCommerce version 2.3 and higher

Does the plugin integrate with every membership site platform?

No, Wishlist Member WooCommerce Members Discounts is a Wishlist Member dedicated plugin.

I have more questions and I haven't found my answers, how can I contact you?

If you haven't found your answers in the product's page and in the guide, please contact our support team and we will get back to you shortly
