Introduction to Wishlist Auto Protect Pro

Thank you for purchasing Wishlist Auto Protect Pro plugin!

Wishlist Auto Protect allows you to protect / unprotect your content **automatically**, meaning: you can move your content's protection from one membership level to another, change the protection settings after a period of time to protect or unprotect.

Wishlist Auto Protect Exclusive Features:

- Automatically protect / unprotect content automatically after specific number of days / on a specific date
- Automatically change the content's membership level/s after specific number of days / on a specific date (supports multiple membership level selections)
- Fully supports both free and paid pay-per-post
- A complete summary table of when the automatic protection / unprotection takes place
- A shortcode that displays the time and date until the automatic change occurs (you can insert it in any post or page)
