Introduction to Wishlist Auto Registration

Thank you for purchasing Wishlist Auto Registration!

Wishlist Auto Registration automates the registration process to any Wishlist Member based membership sites.

The plugin allows registering members automatically by using the details your members filled-in inside the shopping cart.

When members complete the payment in the checkout form, they are redirected back to the site already automatically registered and logged-in.

Inside the "after registration" page they get all the necessary login details using simple shortcodes you add to the page.

Wishlist Auto Registration and Wishlist Member Plugin Connection:

The Wishlist Member plugin does not register members automatically.

Members need to fill in a registration form and only then they are registered to the membership site.

This is the exact reason why we developed Wishlist Auto Registration.

Wishlist Auto Registration **does not replace** the functionality of Wishlist Member, as it is not a membership plugin, but only automates the registration process of Wishlist.

It is based on Wishlist Member and if you deactivate it, it won't work.

The Automatic Registration Process using Wishlist Auto Registration:

1. User clicks on the purchase link
2. User is redirected to your chosen payment gateway's registration form
3. User fills-in the registration form and is redirected back to the membership site
4. User is automatically registered as a member (new/ upgraded) and redirected immediately to the Thank You page
5. Member gets the login information in the Thank You page using the shortcodes

Wishlist Auto Registration Core Plugin + Available AddOns:

Wishlist Auto Registration is divided to 2 products: Core plugin + Add-On

The Core plugin includes PayPal integration only and is a must-have in order to activate any of the add-ons.

You can purchase the 8 following shopping cart add-ons individually:

Important Note: No matter which add-on you purchase, the core plugin is a must-have in order to activate any of the add-ons.

Complete Activation Process Summary in 8 Steps

Follow the steps below to have Wishlist Auto Registration activated and fully function on your membership site. Detailed information about each step will be given further down this manual.

Please Note: In order to use Wishlist Auto Registration you <u>first</u> need to integrate Wishlist Member with your payment gateway/s, as explained inside Wishlist Member settings under the Integration tab.

Wishlist Auto Registration does not change the functionality of Wishlist Member, but uses it to create the auto registration.

Step #1: Plugin Download
Download Wishlist Auto Registration Core plugin zip file from the Purchase Receipt you received to your email.

Step #2: Plugin Installation & Activation
Install the plugin just like any other WordPress plugin from the Plugins menu > Add New.

Step #3: License Activation
Activate the plugin's license using the license key you received to your email. If you also purchased any of the available add-ons, please go to the Gateway Licenses tab and enter the license key for the relevant add-on (there is no need to download any other zip file for the add-ons).

Step #4: Set the After Registration Pages
Go to the Settings tab and set the After Registration page for each membership level (You can leave it at the default as defined in the Wishlist Member plugin settings).

Step #5: Activating the Payment Gateways
Scroll down in the same tab to the "Payment Gateways Settings" option. Only payment gateways that have active licenses will be displayed here.

Step #6: Defining the Miscellaneous Settings
Scroll down in the same tab to the "Miscellaneous Settings" option and check the boxes of the following settings according to your needs: Automatic login after registration, allow email login, get admin email notification for new members, username format for new members (first & last name/ email prefix). Now hit the Save General Settings button.
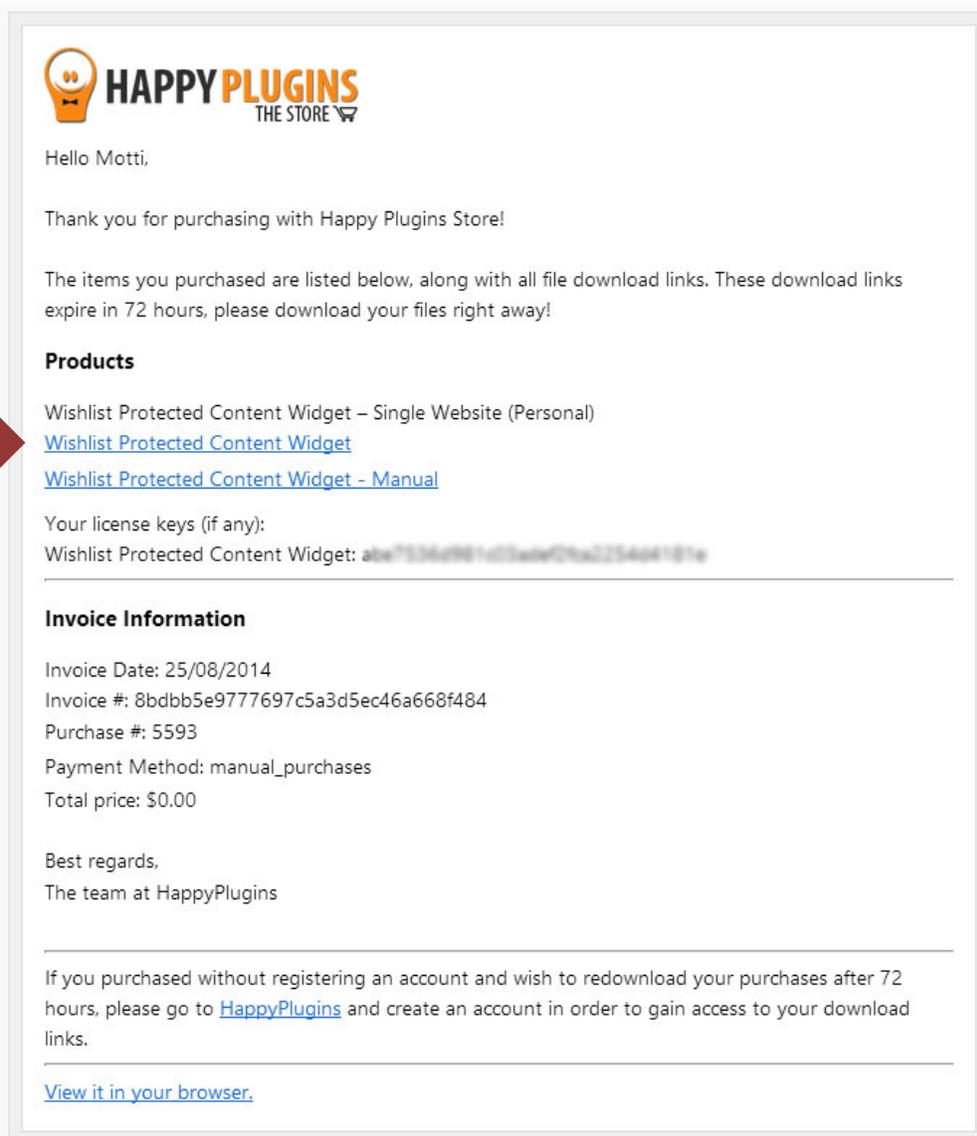

Step #7: Using the Shortcodes
Go to the Dashboard tab and copy-paste your desired shortcodes with the login information inside all the relevant Thank You pages.

Make a test purchase to make sure that the automatic registration using Wishlist Auto Registration works and that

Step #1: Plugin Download

Download Wishlist Auto Registration Core plugin zip file from the Purchase Receipt you received to your email as seen in the screenshot below:

Step #2: Plugin Installation & Activation

Wishlist Auto Registration can be installed easily, just like any other WordPress plugin.

You can install it 2 ways:

1. Upload the folder found inside the zip file to your plugins' folder in your WordPress installation

2. Go to the plugins menu, click the "Add New" and choose the zip file you have downloaded

Step #3: License Activation

After you have installed and activated Wishlist Auto Registration, you will find the plugin's activation setting inside the WordPress menu under: WL Extensions > Wishlist Auto Registration:

Step #4: Set the After Registration Pages

There are two options for setting the After Registration pages:

1. To set the After Registration pages for each membership level.

2. To leave the default settings defined in Wishlist Member plugin's settings.

Screenshot:

After Registration Settings

Choose which page the user will be redirected to after the autoregistration process is finished.

* You can leave the redirections at the defaults and Wishlist AutoRegistration will redirect the new member to the redirection page that is set inside wishlist member level settings.

Level Name	Redirect Page
Pro	Thanks for Joining!
Premium	Default (Sales Page 2 – Pro & Premium Memberships)
Level1	Default (Sales Page 2 – Pro & Premium Memberships)
Level2	Default (Sales Page 2 – Pro & Premium Memberships)

Test Level | OK	Default (Sales Page 2 – Pro & Premium Memberships)
Pay Per Post	Redirect to Post

*By default PayPerPost after registration page is
the general after registration page that can be found under Wishlist Member Settings tab.*

Step #5: Activating the Payment Gateways

Wishlist Auto Registration – Core plugin includes PayPal integration only.

Each shopping cart add-on you purchase individually will be added to the available payment gateways as seen in the example below:

Payment Gateways Settings

The default settings of Wishlist Auto Registration is disabled please check the gateways you want auto registration enabled.

Looking for a payment gateway that does not appear in this list? In Gateways Licenses Tab you can enable more payment gateways.

Enable / Disable AutoRegistration for Specific payment gateway:

- ☑ ClickBank
- ☐ 1ShoppingCart
- ☑ PayPal

You can choose to enable or disable each of the payment gateways by marking or un-marking the check-box.

After enabling your chosen payment gateways and clicking on the Save button, the auto registration will be activated.

Step #6: Defining the Miscellaneous Settings

Scroll down in the same tab to the "Miscellaneous Settings" option and check the boxes of the following settings according to your needs as seen in the screenshot below:

Miscellaneous Settings

Set other settings in the automatic registration process to adapt it to your website needs.

☑ **Login automatically after registration.**
When this field is checked the user will be automatically logged in after the registration process complete.

☑ **Allow Email Login.**
When this field is checked the a member can log in to their account using their email address.

☑ **Send Admin Email for every new member.**
When this field is checked the an email will be send to website administration for every new member that is registered.
The email format is the same one that is set inside Wishlist Member email settings.

New Member username format: ⦿ Firstname & Lastname   ◯ Email Prefix

Choose the desired username format you want for every member that is registered in the auto registration process.
The Firstname & Lastname option will create a username that consisnt from the member first and last name separated with a period.
The Email Prefix option will create a username that consist from the member email address prefix (the part before the @ sign)

[Save General Settings]

Step #7: Using the Shortcodes

Since Wishlist Auto Registration registers the members to the site automatically, they will need to get important details such as their username and password in order to be able to login to the site in the future.

Go to the Dashboard tab and copy-paste your desired shortcodes with the login information inside all the relevant Thank You pages as seen in the screenshot below:

Wishlist Auto Registration allows you to register members to your membership site automatically.

Your members will need to go through only 2 simple steps in order to register to the site: Click on the Buy button and complete the registration in the payment gateway.

Wishlist AutoRegistration comes with PayPal support you can enable payment gateways by buying seperate license for each gateway.

In this way you pay only for the gateway that you need and saving money for not paying on payment gateways that you are not using.

Check the Gateway Licenses tab to enable more payment gateways.

Thank You Page Shortcodes

You can use the following shortcodes inside your thank you page:

[wlar_username] - Display the Auto-generated username

[wlar_firstname] - Display the member's first name

[wlar_lastname] - Display the member's last name

[wlar_password] - Display the Auto-generated password

[wlar_member_upgraded] Content here[/wlar_member_upgraded] - A Text message you can display to upgrading members

Important note:

Since the information displayed in the shortcodes is sensitive, all the information will be available for the member for 30 minutes from the first time the page has been loaded.

Please add a note to your members to save the information on their computer.

In addition, the username and password will also be sent to the user by mail as defined in the Wishlist Member plugin email settings.

Step #8: Testing the Registration Process

Please make a test purchase to make sure that the automatic registration using Wishlist Auto Registration is working as explained in the [Introduction](#) under "The Automatic Registration Process using Wishlist Auto Registration".

What to Do if the Registration Process is Not Working?

If you have encountered a problem in the registration process, please see our [complete documentation](#) of Wishlist Auto Registration for more instructions.

FAQS

What is the registration process members will go through if I use your plugin?

The registration process is very simple and it includes only 3 steps:

1. Clicking on the Buy button

2. Completing the purchase in the shopping cart

3. Being automatically redirected to the site logged-in.

Can I change the after registration redirection page?

Yes, you can set a different redirection page to each membership level separately simply and easily from the plugin's settings tab.

What shopping carts Wishlist Auto Registration supports?

The core version of Wishlist Auto Registration – Core (current) supports only PayPal.

However, you can purchase add-ons for these shopping carts: Clickbank, InfusionSoft, 1ShoppingCart, 2CheckOut, Pin Payments, eWay, Stripe and Authorize.net

Does the plugin support pay-per-post?

Yes, we released a new version and once you purchase the plugin, you'll be able to use it for pay-per-post feature as well.

Does the plugin work for free registrations?

No, the plugin works for paid membership only, however, you can purchase Wishlist 1-Click Registration which is another plugin developed by us that automates the registration process to any **free** membership level of your choice.

Can Wishlist Auto Registration work with any membership plugin?

No, Wishlist Auto Registration is a Wishlist Member dedicated plugin.

How will members get their login details?

Wishlist Auto Registration allows you to add simple shortcodes to the After Registration Page with the log-in details and they will be available for 30 minutes (for security reasons), so they have enough time to save them.

What details can I display members using the shortcodes?

Username, first name, last name, password (auto-generated), registration email (from the shopping cart), level name, receipt number, action (new/ upgrade) and a content box with your message.

Does the plugin have any conflicts with other plugins?

As far as we know, the plugin does not conflict with any other plugin. Wishlist Auto Registration keeps a very strict code method so the chances that it's causing any problem are very low. If you have any problems or conflicts, please try to disable the plugin and see if the problem still exists. If it does, please contact our support helpdesk.

Does the plugin integrate with every membership site platform?

No, Wishlist Auto Registration is a Wishlist Member dedicated plugin.
