Introduction to Wishlist bbPress Protection

Thank you for purchasing Wishlist bbPress Protection plugin!

Wishlist bbPress Protection allows you to protect both new and existing forums, topics and replies for members only.

Without Wishlist bbPress Protection plugin it's impossible to automatically protect topics and replies created by the forum members, but you need to enter each topic and reply and set the protection settings manually.

Using the Wishlist bbPress Protection plugin, all new topics and replies will be protected automatically as soon as you activate the plugin, and all existing topics and replies will be protected with a click of a mouse (in the Settings tab >> clicking the button "Fix Protection").

The plugin also allows you to protect the main forum index page (E.g. <http://yourdomain.com/members-forum>) for the membership levels you specify and set an error page for non-members who will try to access that page.

Please follow the instructions in the next pages to activate the Wishlist bbPress Protection plugin quickly and easily.

Complete Activation Process Summary in 5 Steps

Follow the steps below to have Wishlist bbPress Protection activated and fully function on your membership site.

Detailed information about each step will be given further down this manual:

Step #4: Enabling bbPress Custom Post Types in Wishlist Member Settings

Before we go over the plugin's settings, you need to make sure all the bbPress custom post types are checked inside Wishlist Member settings, go to Wishlist Member menu >> Settings tab >> Custom Post Types >> Make sure the Forums, Topics and Replies are checked as seen in the screenshot below:

The screenshot shows the Wishlist Member settings interface. The navigation menu includes Dashboard, Settings, Members, Levels, Content, Sequential Upgrade, and Integration. Under the Settings tab, there are sub-menus for Configuration, Email Settings, Registration Page, Advanced, Backup, Import/Export, and Setup Wizard. The Configuration sub-menu is active, showing System Pages, Protection Defaults, Custom Post Types, Miscellaneous, Cron Settings, and Logs. The main heading is "Settings » Configuration » Custom Post Types". Below this, there is a section titled "Let WishList Member manage protection for the select custom post types". A table lists the custom post types with checkboxes: "Custom Post Type" (unchecked), "Forums" (checked), "Topics" (checked), and "Replies" (checked). A red arrow points to the checked boxes with the text "All 3 custom post types for bPress that need to be checked". A "Save Settings" button is located at the bottom left.

Custom Post Type	Checked
Custom Post Type	<input type="checkbox"/>
Forums	<input checked="" type="checkbox"/>
Topics	<input checked="" type="checkbox"/>
Replies	<input checked="" type="checkbox"/>

Save Settings

If you haven't defined all of the bbPress custom post types, Wishlist bbPress Protection plugin will take care of that for you by notifying you and giving you the option to automatically check them in 1-click only as seen in the below screenshot:

The screenshot shows a navigation menu at the top with a shopping cart icon and links for Dashboard, Settings, License Information, Support, and Other Products. The main heading is "Wishlist bbPress Protection - Settings". Below it, a red heading reads "Wishlist Member Custom Post Type - Error". The text explains that not all bbPress custom post types are enabled and offers a link to "Wishlist Member Custom Post Settings" or a button to "Enable Wishlist Member Protection on bbPress Custom Posts Type". A red arrow points from the button to the text "Check all the bbPress relevant custom post types in 1-click!".

Step #5: Going Over Wishlist bbPress Protection Settings

Protecting New Topics and Replies:

All **new** replies and topics that will be created will be **automatically** protected by their parent forum and inherit its protection settings as soon as you activate the plugin, without the need to define anything inside the plugin.

Protecting Existing Topics and Replies:

All existing topics and replies that were created before installing and activating the Wishlist bbPress Protection plugin will **NOT** be protected by default. In order to protect these topics and replies you need to go to the Settings tab >> "New Topics & Replies Protection >> Click the "Fix Protection" button as seen in the screenshot below (a success message will appear after clicking the button):

Dashboard Settings License Information Support Other Products

Wishlist bbPress Protection - Settings

All exiting topics and replies in the selected forum has been protected successfully.

New Topics & Replies Protection

Forum Name	Protection	Levels	Actions
Forum 4	Yes	Error: Protection is set but no access levels were defined. Please specify protection levels	Edit Forum
Forum 3	Yes	Level 1, Level 2	Edit Forum Fix Protection

More information about the above table:

By clicking on the Edit Forum button you can edit the protection settings of each forum. You will be redirected to edit the Wishlist Member Meta box as seen in the below screenshot.

If no protection levels have been assigned to the forum you will see this error: *"Protection is set but no access levels were defined. Please specify protection levels."*

The screenshot displays a table titled "New Topics & Replies Protection" with the following data:

Forum Name	Protection	Levels	Actions
New Forum	Yes	Level 1, Level 2	Edit Forum Fix Protection
Test	Yes	Error: Protection is set but no access levels were defined. Please specify protection levels	Edit Forum

Annotations in the screenshot:

- A red arrow points from the text "Redirected to edit the forum's protection settings" to the "Edit Forum" button for the "New Forum" row.
- A red arrow points from the text "Error message if you haven't defined any membership levels" to the error message in the "Test" row.
