# Introduction to Wishlist Drip Dynamic Shortcodes

Thank you for purchasing Wishlist Drip Dynamic Shortcodes plugin!

Wishlist Drip Dynamic Shortcodes allows you to display / hide content based on the members' registration date, membership level and the time passed since the registration using simple yet powerful shortcodes.

All you need to do in order to display / hide content is to copy-paste the shortcodes from the Dashboard tab into your chosen post or page and set the parameters inside the shortcode as explained further down this manual.

Unlike any other drip plugins, where your members cannot see the "big picture": and does not know what content will be available to them in the future, using Wishlist Drip Dynamic Shortcodes your members will be able to see which content will be available to them in the future.

# Complete Activation Process Summary in 4 Steps

Follow the steps below to have Wishlist Drip Dynamic Shortcodes activated and fully function on your membership site.

Detailed information about each step will be given further down this manual:

## [Step #1: Plugin Download](#)

Download Wishlist Drip Dynamic Shortcodes Core plugin zip file from the Purchase Receipt you received to your email.

## [Step #2: Plugin Installation & Activation](#)

Install the plugin just like any other WordPress plugin from the Plugins menu > Add New.

## [Step #3: License Activation](#)

Activate the plugin's license using the license key you received to your email and that can be also found in your account at <http://happyplugins.com/your-account/>

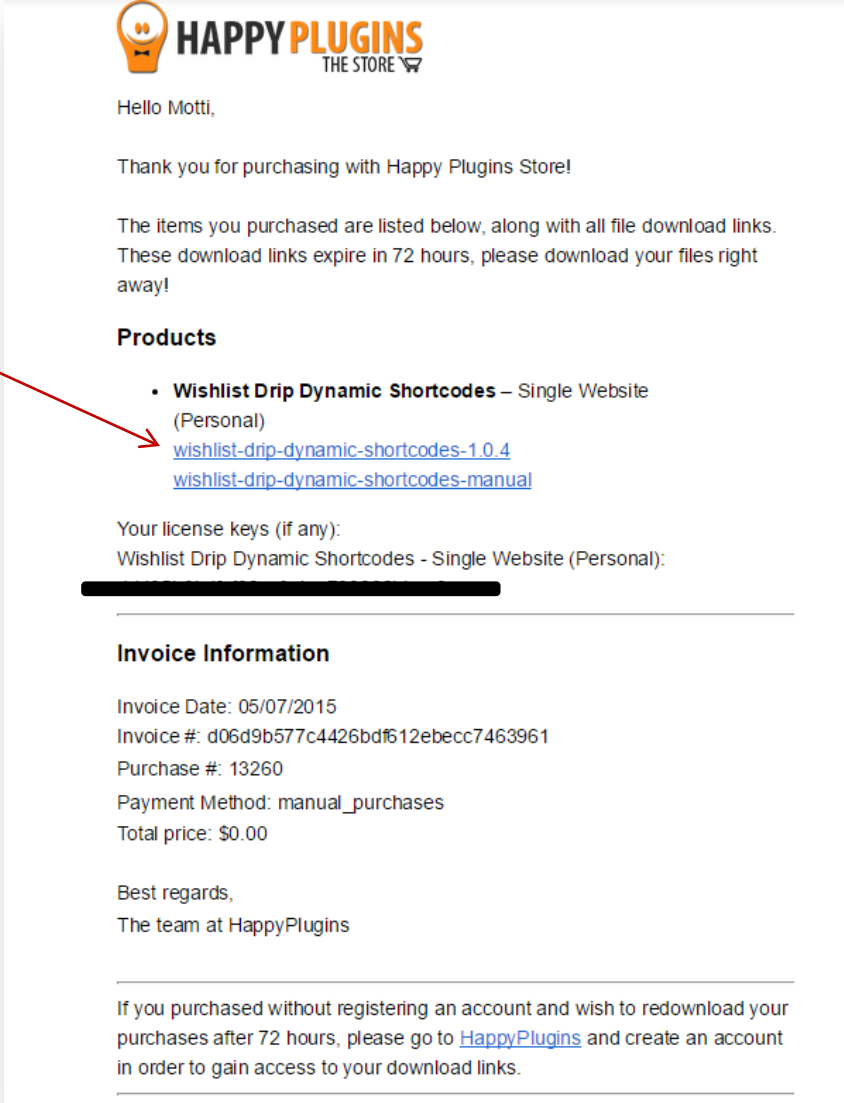

## [Step #4: Copy and Paste the shortcodes to Any Post / Page](#)

After activating the license, all you need to do is copy and paste the shortcodes (including the parameters) to your chosen posts/ pages / custom post type. All the shortcodes and parameters can be found inside Wishlist Drip Dynamic Shortcodes plugin >> under the Dashboard tab.

# Step #1: Plugin Download

Download Wishlist Drip Dynamic Shortcodes plugin zip file from the Purchase Receipt you received to your email as seen in the screenshot below:

Click to  
download the  
plugin

 **HAPPY PLUGINS**  
THE STORE

Invoice #: d06d9b577c4426bd6f612ebecc7463961  
Purchase #: 13260  
Payment Method: manual\_purchases  
Total price: \$0.00

Best regards,  
The team at HappyPlugins

---

If you purchased without registering an account and wish to redownload your purchases after 72 hours, please go to [HappyPlugins](#) and create an account in order to gain access to your download links.

## Step #2: Plugin Installation & Activation

Wishlist Drip Dynamic Shortcodes plugin can be installed easily, just like any other WordPress plugin.

**You can install it 2 ways:**

1. Upload the folder found inside the zip file to your plugins' folder in your WordPress installation
2. Go to the plugins menu, click the "Add New" and choose the zip file you have downloaded

## Step #3: License Activation

After you have installed and activated Wishlist Drip Dynamic Shortcodes, you will find the plugin's activation setting inside the WordPress menu under: WL Extensions > Wishlist Drip Dynamic Shortcodes.

To activate the plugin you purchased, you need to insert the license number in the right place under "License Key" as seen in the screenshot below:

Enter license  
key here

### Wishlist Drip Dynamic Shortcodes - Activate License

Fill in the license key for Wishlist Drip Dynamic Shortcodes.

(You can find the license key inside your account or in the email you got when you purchased Wishlist Drip Dynamic Shortcodes)

#### Having License Problems?

This can be caused due to the following scenarios:

1. The license key you have entered is wrong – Copy the license key from your account in Happy Plugins Store
2. You have reached your license activation capacity – Please purchase more licenses

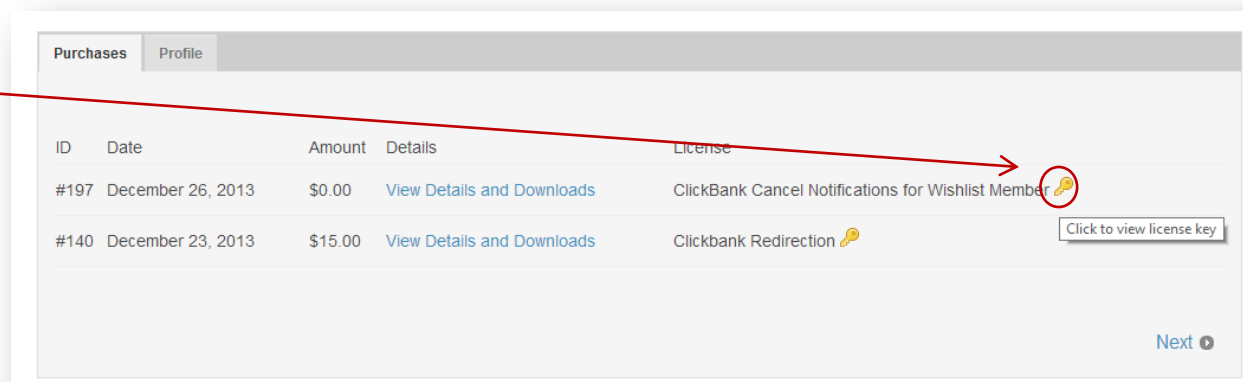

You can always buy more licenses for this product at: [Wishlist Drip Dynamic Shortcodes](#)

This plugins is developed by HappyPlugins if you don't own a license go to [Happy Plugins](#) store and buy a license key for this product.

## Finding Your License Key

You have 3 options to finding your licenses keys:

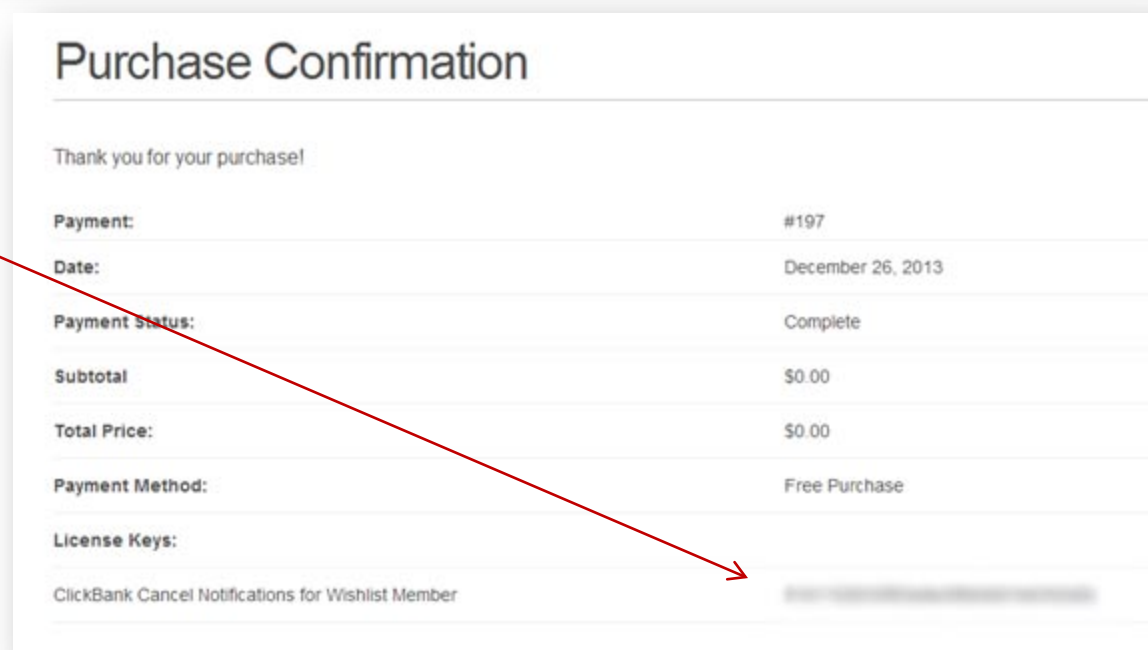

**1. Go to My Account > Purchases and click on the key icon:**

ID	Date	Amount	Details	License
#197	December 26, 2013	\$0.00	<a href="#">View Details and Downloads</a>	ClickBank Cancel Notifications for Wishlist Member 
#140	December 23, 2013	\$15.00	<a href="#">View Details and Downloads</a>	Clickbank Redirection 

Next 

**2. When you finish the purchase process:**

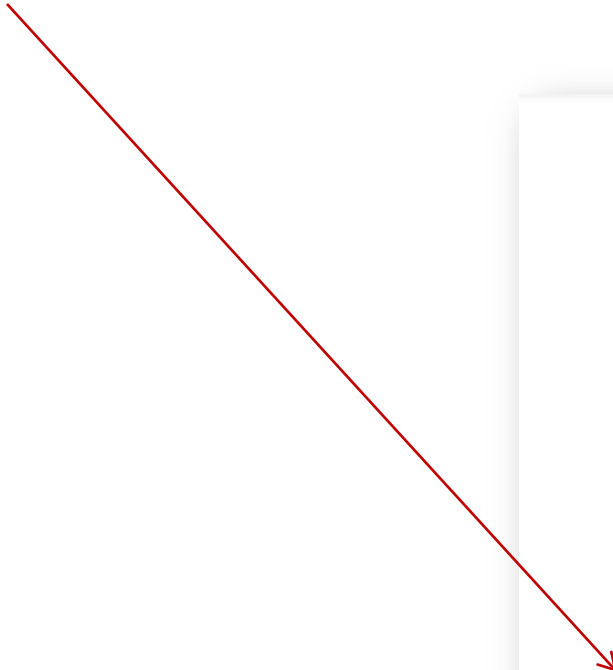

### Purchase Confirmation

Thank you for your purchase!

Payment:	#197

If you purchased without registering an account and wish to redownload your purchases after 72 hours, please go to [HappyPlugins](#) and create an account in order to gain access to your download links.

## Step #4: Copy and Paste the shortcodes to Any Post / Page

After activating the license, all you need to do is copy and paste the shortcodes (including the parameters) to your chosen posts/ pages / custom post type. All the shortcodes and parameters can be found inside Wishlist Drip Dynamic Shortcodes plugin >> under the Dashboard tab.

**These are all the parameters (both required and optional):**

### Shortcodes Parameters

Each one of the above shortcodes requires a few parameters in order to work:

Parameter	Required/Optional	Description
levels	Required	The list of levels you want to display / hide the content to / from after the period has passed
period	Required	The period that needs to pass before the content will be displayed / hidden. For example: 13days or 4weeks
display_message	Optional	Allows you to display a message when the content is not yet displayed / hidden according to the shortcode (parameter is defined as "yes / no")
message	Optional	The message that will be displayed. Message format can include 2 parameters: {{days}} and {{date}} these parameters will be automatically replaced with the appropriate information
admin_bypass	Optional	Allows you to bypass the period and always hid / display to shortcode's content to the admin for testing
delimiter	Optional	Default delimiter between levels is ,, if you want to use special delimiter you can define it using the delimiter parameter.

## Regarding the shortcodes, there are two types of shortcodes:

### 1. Shortcodes for displaying / hiding content to / from multiple membership levels

Shortcodes	
Shortcode	Description
<code>[wldd_display]</code> Content To Display <code>[/wldd_display]</code>	Display content after a specific period has passed from the registration date
<code>[wldd_hide]</code> Content To Hide <code>[/wldd_hide]</code>	Hide content after a specific period has passed from the registration date

Required parameters for these shortcodes: "levels" (for defining multiple membership levels) and "period". All other parameters are optional.

Example:

An example of a shortcode for displaying content for multiple membership levels would be:

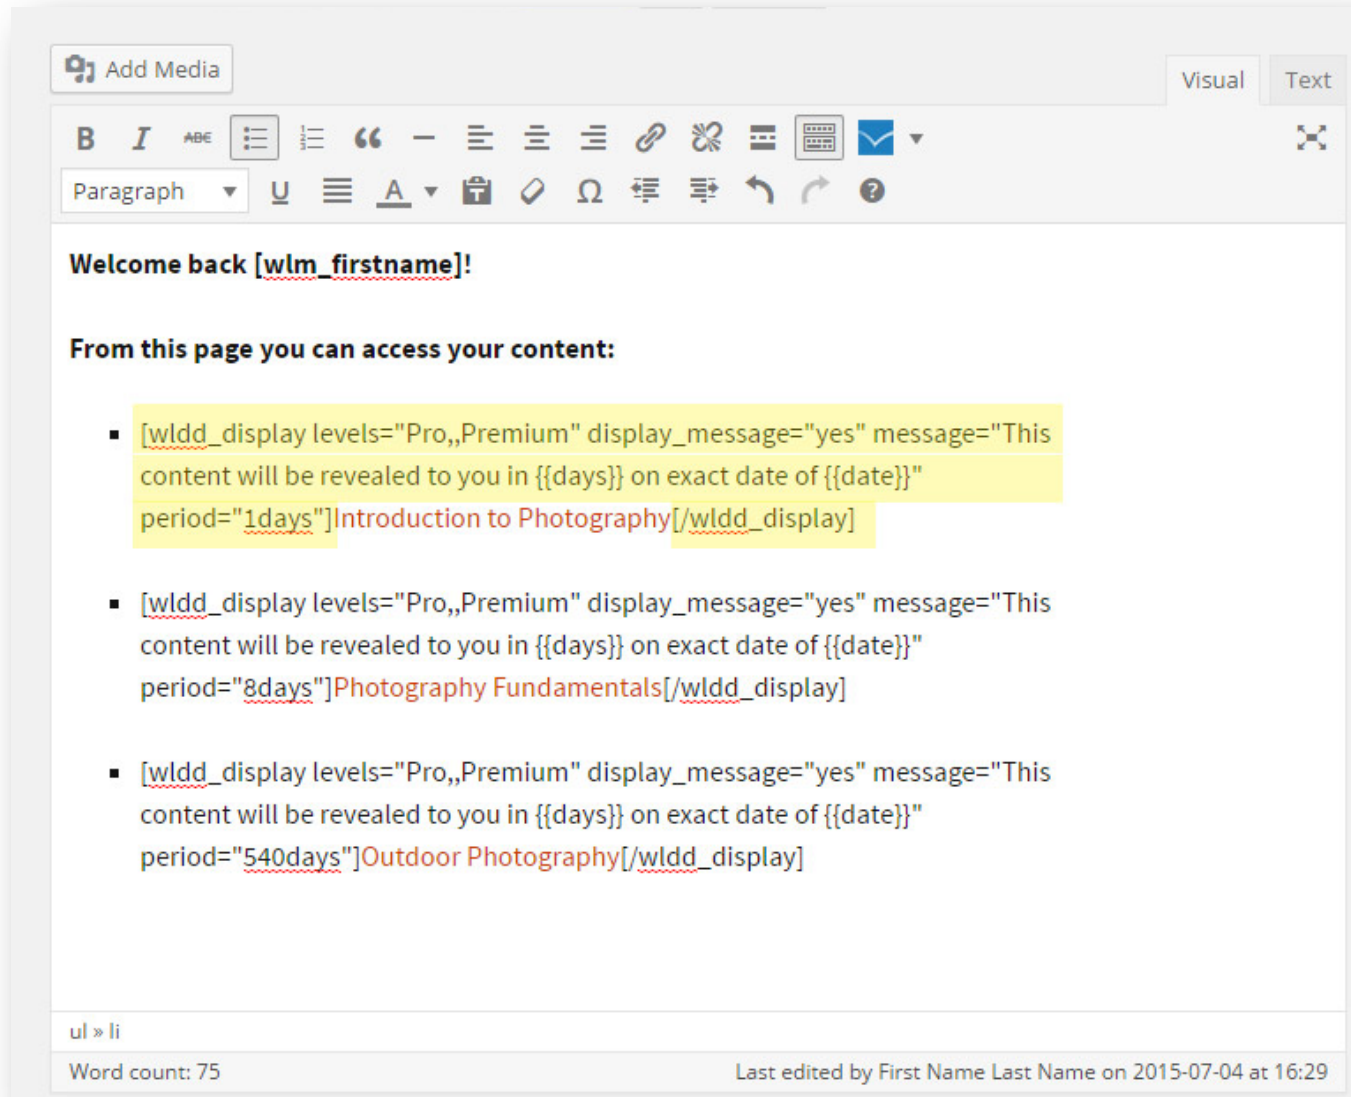

```
[wldd_display levels="Module1,,Module2,,Module3" display_message="yes" message="This content will be revealed to you in {{days}} on exact date of {{date}}" period="14days"] Test Content [/wldd_display]
```

This means that the content inside the shortcode will be displayed to members in the membership levels: Module 1, Module 2 and Module 3 14 days after their registration date.

We have also added the optional parameters: "display\_message" and "message" for members whose membership period is **less** than 14 days. These members will not see the content inside the shortcode, but they will see the message inside the "message" parameter.

The `{{days}}` and `{{date}}` parameters change dynamically according to each member's registration date.

This is another example of how the shortcodes look in the back-end inside a post:

The screenshot shows the WordPress back-end editor interface. At the top, there is an 'Add Media' button and tabs for 'Visual' and 'Text'. Below the tabs is a rich text editor toolbar with various icons for bold, italic, text color, background color, bulleted list, numbered list, link, unlink, table, video, and more. The main content area shows the following text:

**Welcome back `[wlm_firstname]`!**

**From this page you can access your content:**

- `[wldd_display levels="Pro,,Premium" display_message="yes" message="This content will be revealed to you in {{days}} on exact date of {{date}}" period="1days"]Introduction to Photography[/wldd_display]`
- `[wldd_display levels="Pro,,Premium" display_message="yes" message="This content will be revealed to you in {{days}} on exact date of {{date}}" period="8days"]Photography Fundamentals[/wldd_display]`
- `[wldd_display levels="Pro,,Premium" display_message="yes" message="This content will be revealed to you in {{days}} on exact date of {{date}}" period="540days"]Outdoor Photography[/wldd_display]`

At the bottom of the editor, there is a status bar showing 'Word count: 75' and 'Last edited by First Name Last Name on 2015-07-04 at 16:29'.

And this is how it looks in the front-end from a member point of view:

# Module 1

🕒 2015-07-04 📁 Uncategorized ✎ Edit

**Welcome back Ran!**

**From this page you can access your content:**

- [Introduction to Photography](#)
- [Photography Fundamentals](#)
- This content will be revealed to you in 309 days on exact date of 2016-05-08 19:52

## 2. Shortcodes for displaying / hiding content to / from one membership level

These shortcodes will appear in a separate table in the Dashboards tab >> under Dedicated Levels Shortcodes and what's special about these shortcodes is the fact that they are created automatically according to the membership levels you specified inside Wishlist Member.

Level Name	Display Content	Hide Content
Pro	[wldd_display_Pro] Content To Display [/wldd_display_Pro]	[wldd_hide_Pro] Content To Hide [/wldd_hide_Pro]
Premium	[wldd_display_Premium] Content To Display [/wldd_display_Premium]	[wldd_hide_Premium] Content To Hide [/wldd_hide_Premium]
Level1	[wldd_display_Level1] Content To Display [/wldd_display_Level1]	[wldd_hide_Level1] Content To Hide [/wldd_hide_Level1]
Level2	[wldd_display_Level2] Content To Display [/wldd_display_Level2]	[wldd_hide_Level2] Content To Hide [/wldd_hide_Level2]
Level3	[wldd_display_Level3] Content To Display [/wldd_display_Level3]	[wldd_hide_Level3] Content To Hide [/wldd_hide_Level3]
Level4	[wldd_display_Level4] Content To Display [/wldd_display_Level4]	[wldd_hide_Level4] Content To Hide [/wldd_hide_Level4]
Test Level   OK	[wldd_display_Test Level   OK] Content To Display [/wldd_display_Test Level   OK]	[wldd_hide_Test Level   OK] Content To Hide [/wldd_hide_Test Level   OK]
ARM3L2	[wldd_display_ARM3L2] Content To Display [/wldd_display_ARM3L2]	[wldd_hide_ARM3L2] Content To Hide [/wldd_hide_ARM3L2]

The only required parameter in this case is the "period" parameter. All other optional parameters can be added as well.

### **Shortcodes Summary Table:**

By going to the Settings tab you will be able to view a summary table of all the posts and pages that contain any of the shortcodes.

Inside the summary table you can see the post / page name, the shortcode itself, the membership levels specified and dripping period.

You can also go to edit the post / page by clicking the Edit button in the table.

As you can also see in the screenshot below (next page), if one or more of the parameters is not defined correctly you will see an error message.

# FAQS

## Does the plugin have any conflicts with other plugins?

As far as we know, the plugin does not conflict with any other plugin. Wishlist Drip Dynamic Shortcodes keeps a very strict code method so the chances that it's causing any problem are very low. If you have any problems or conflicts, please contact the support department.

## Does the plugin integrate with every membership site platform?

No, Wishlist Drip Dynamic Shortcodes is a Wishlist Member dedicated plugin.

## I have more questions and I haven't found my answers, how can I contact you?

If you haven't found your answers in the product's page and in the guide, please contact [our support team](#) and we will get back to you shortly

# About HappyPlugins

[HappyPlugins](#) was established in 2010 to develop plugins and extensions for the WordPress platform.

The majority of the plugins are developed as white label according to our clients' specific requirements.

In late 2010 we opened a new branch under HappyPlugins for developing Wishlist Member dedicated plugins called Wishlist Member Developers.

Our team here at [Wishlist Member Developers](#) develops commercial and custom plugins for the Wishlist Member platform.

## Expertise

Our expertise includes:

- In depth knowledge and understating in the web industry
- UXI design and improvement
- Experience in traffic and media buying for large companies
- Subscription-based marketing and retention
- Conversions and flow design optimization

# Contact information

## [The Store](#)

Find unique WordPress plugins on our plugins' store. We have designed and developed hundreds of custom plugins and solutions for customers so far and are selling the best of them in our store.

## [The Service](#)

Looking for a special solution for WordPress, one that will complete the missing puzzle piece in your website? Please send us your request and we promise to return to you no later than 72 hours.

## [The Blog](#)

Interested in our development work or want to improve your WordPress development skills? Check our blog; there we publish unique prescriptive and sample codes from our own plugins.

## Contact Support

Our support team is always available to help you with any question you may have.

All of our products include 3 months of free support. Any support after that period of time will be done in the community forums or as paid support.

### **Important:**

Before contacting our support team, please check the following sources of information, as you may find the answer you are looking for there:

1. Make sure you are always using the latest version of the plugin
2. Go over the FAQs inside this manual or check the frequently asked questions section inside Wishlist Drip Dynamic Shortcodes plugin's sales page (FAQs tab) at HappyPlugins.com

## Open a Support Ticket

If you haven't found your answer in any of the above sources, please open a support ticket through our support helpdesk and we will get back to you in the next 72 hours.
