Introduction to Wishlist Member WooCommerce Plus

Thank you for purchasing Wishlist Member WooCommerce Plus!

Wishlist Member WooCommerce Plus plugin integrates Wishlist Member and WooCommerce and allows you to create and add products to unlimited number of membership levels and / or paid posts when using the pay-per-post feature.

Important Note:

The purpose of Wishlist Member WooCommerce Plus plugin is **NOT** to protect WooCommerce products to be visible by members only, **but to sell** membership levels and / or pay-per-post content, while enjoying the advantages of the WooCommerce Platform.

When using the Wishlist Member WooCommerce Plus plugin, without the "External Membership Sites Add-Ons Bundle", you can sell local membership products which are on the same site as your online store, meaning: WooCommerce and Wishlist Member are on the same WordPress installation.

Adding Membership Products to Levels:

All membership levels you have created will automatically appear in this table:

Make sure you are on "Levels" option

Adding Membership Products to Pages Protected under Pay-Per-Post:

The same goes for adding products to pages that are protected under the pay-per-post protection. All pages that are protected under the pay-per-post protection will automatically appear in this table

Please note: Only pages that are protected under the "pay-per-post" protection will be added to the table.

Make sure you are on "Pages" option

Shop	payperpost-4	Membership Product For Shop	Publish	wlmpayperpost-4	Edit

Guide	payperpost-142	---	---	---	---

Click Edit to go to the product page and publish your product

Click on the button to create a new product for "Guide" page

2. When clicking on the "Edit" link in each of the above tables (Levels / Posts / Pages), you will be redirected to the product's page > Edit your product's details and publish it:

Edit your membership product's details

The screenshot shows the 'Edit Product' interface in WordPress. At the top, the product title is 'Membership Product For Test'. Below the title is a rich text editor containing the text: 'This is a membership product for the Test' and 'Please don't change the product SKU as the membership product will stop working'. The 'Product Data' section is set to 'Simple product', with 'Virtual' checked and 'Downloadable' unchecked. The 'SKU' field is populated with 'wmpayperpost-140'. The right sidebar contains several sections: 'Publish' (with a 'Publish' button), 'Product Categories', 'Product Tags', and 'Featured Image'. A red arrow points from the text 'Edit your membership product's details' to the rich text editor. Another red arrow points from the text 'Click here to publish the product' to the 'Publish' button. A third red arrow points from the text 'You can see that the SKU is already filled in the product automatically' to the 'SKU' field.

Click here to publish the product

You can see that the SKU is already filled in the product automatically

3. Test that the integration is set correctly and that a new customer who completes a purchase is added to the membership level / pay-per-post:

- > Copy the product's page URL and paste it into a new browser (make sure you are not logged in to the site)
- > Add the product to the cart and go to the checkout
- > Complete the test purchase using a new email address to create a new user OR an existing email to upgrade an existing user
- > Now you should be redirected back to the site and see the payment receipt
- > Go to the Members tab inside Wishlist Member plugin and see if a new user was created with the correct membership level / pay-per-post OR if the existing member was upgraded to the new membership level / pay-per-post
- > Check that the email with the membership details were sent to the email you have specified

Experiencing one of these problems?

- The member was not added to the membership level / pay-per-post
- The email was sent, but the login details are missing

Please make sure you are using the latest version of Wishlist Member WooCommerce Plus. If you are, please open a [support ticket](#) and our support team will get back to you shortly.
