Introduction to Wishlist Membership Notifications

Thank you for purchasing Wishlist Membership Notifications plugin.

Wishlist Membership Notifications allows you to send email notifications to members before and / or after their membership expires and increase their chances of renewing their subscription.

Sending your members notifications to let them know their membership is about to expire or has already expired will increase the chances of members to renew their subscription.

Wishlist Membership Notifications Offers 10 Exclusive Features

1. Send up to 10 email notifications before and / or after the membership expires
2. Choose as many membership levels as you like to send the notifications to
3. Customize the notifications to your needs using WordPress toolbar and Wishlist Member merge codes
4. Send test messages to see a preview of the notification
5. Send the email in HTML / Text format
6. See the exact notifications queue including: Member's name, Email, Membership Level, Notification Number, Date and Status (Send / Queued)
7. Clear the notifications queue / delete all sent notifications
8. Filter the queue according to members / dates / membership levels / notifications / status / free search
9. Control the number of notification sent per hour
10. Update the Notifications Queue list every hour/ when cron job executes

Complete Activation Process Summary in 6 Steps

Follow the steps below to have Wishlist Membership Notifications activated and fully function on your membership site.

Detailed information about each step including screenshots will be given further down this manual:

[Step #1: Plugin Download](#)

FAQS

Who is the plugin relevant for?

Wishlist Membership Notifications is relevant to any membership site that has an expiration date and that members need to renew their membership.

Is it safe to send emails from our own server?

There isn't any problem with sending emails from your own server and you will not get blacklisted from doing so.

The problem that some servers are blacklisted only happens when you send more than 500 emails per hour, which include spam content.

The spam checker of any email provider is different, but because the emails that you send from Wishlist Membership Notifications are different from one another, in most cases, does emails will not be considered as spam.

Why do you charge on a monthly basis for using the plugin?

Wishlist Membership Notifications is evolving all the time and new features are added on a regular basis.

The only way to make this possible is by charging recurring monthly payments that will help us to support future additions of Wishlist Member and WordPress.

Also, if you manage to reserve even only one client using Wishlist Membership Notifications, then the monthly price is a no brainer!

Does the plugin have any conflicts with other plugins?

As far as we know, the plugin does not conflict with any other plugin. Wishlist Membership Notifications keeps a very strict code method so the chances that it's causing any problem are very low.

If you have any problems or conflicts, please try to disable the plugin and see if the problem still exists. If it does, please contact our support helpdesk.

Does the plugin integrate with every membership site platform?

No, Wishlist Membership Notifications is a Wishlist Member dedicated plugin.
