Wishlist Member WooCommerce Plus allows you to sell membership levels or pay-per-post content using the WooCommerce platform.

In Wishlist Member WooCommerce Plus a WooCommerce product is assigned to specific content and when a customer purchases this product he will also automatically have access to that membership level or the pay-per-post content.

Using the Member Registration add-on you can assign membership levels and / or pay-per-post content to regular WooCommerce products, even physical products and when the customer purchases the product he will also automatically b granted with access to the membership level/s and / or pay-per-post content that is defined in the product's settings.

Does the Member Registration Add-On supports pay-per-posts custom post types?

Just like the Wishlist Member WooCommerce Plus core plugin, the support of custom post types can be enabled using the dedicated Custom Post Type Add-On.

Custom Post Types in Wishlist Member are handled differently and because not all Wishlist Member WooCommerce Plus users need this function we have added it as a dedicated add-on to lower the plugin's price.
