Introduction to the Variable Products Add-On

Thank you for purchasing Wishlist Member WooCommerce Plus – Variable Products Add-On!

The Variable Products Add-On allows you to sell different membership levels to different variations within a WooCommerce variable product.

This means that you can sell different membership levels to every product variation you setup within a specific WooCommerce product.

Using the Variable Products Add-On you can sell:

Local Memberships -Selling membership levels and / or pay-per-posts that are located on the same website as your WooCommerce store.

To use the Variable Products Add-On for local memberships you need to purchase the Wishlist Member WooCommerce Plus plugin

External Memberships – Selling membership levels that are located on a different website than your WooCommerce store.

To use the Variable Products Add-On for external memberships you need to purchase the Wishlist Member WooCommerce Plus plugin + The External Membership Sites Add-Ons Bundle

Complete Activation Process Summary in 5 Steps

Follow the steps below to have Wishlist Member WooCommerce Plus activated and fully function on your membership site.

Detailed information about each step will be given further down this manual:

[Step #1: Add-On License Activation](#)

The Variable Products Add-On does not have a zip file, just copy the license key from the purchase receipt sent to you by mail and paste it inside the Wishlist Member WooCommerce Plus plugin » under the Add-Ons tab.

[Step #2: Setup WooCommerce Variable Product](#)

Before you can setup the membership levels to your product variations you first need to create your WooCommerce variable product. You can check WooCommerce short video tutorial on how to setup your variable product in this link:

<https://docs.woothemes.com/document/variable-product/>

[Step #3: Integrate the Membership Levels to the Product Variations](#)

For local memberships (when WooCommerce and Wishlist Member are on the same website) »»» [CLICK HERE](#)

For external memberships (when WooCommerce and Wishlist Member are on different websites) »»» [CLICK HERE](#)

[Step #4: Define the Memberships Priority \(Relevant for External Memberships Only\)](#)

Within your WooCommerce store go to the Wishlist Member WooCommerce Plus plugin » Settings tab » Scroll down to the "Variable Products Membership Settings" » Choose the membership registration priority

[Step #5: Test the Registration Process](#)

Complete a test purchase of the relevant variable product and check that the customer was added to the relevant membership level defined within the variation you chose.

Step #1: Add-On License Activation

The Variable Products Add-On does not have a zip file, just copy the license key from the purchase receipt sent to you by mail and paste it inside the Wishlist Member WooCommerce Plus plugin » under the Add-Ons tab as seen in the screenshots:

Hello Motti,

Paste the license key here

Step #2: Setup WooCommerce Variable Product

Before you can setup the membership levels to your product variations you first need to create your WooCommerce variable product.

Enter the relevant WooCommerce product settings » Go to the Product Data Meta Box » Choose Variable Product and add your product variations:

You can check WooCommerce short video tutorial on how to setup your variable product in this link

<https://docs.woothemes.com/document/variable-product/>

Here is an example of a variable product and the variation we have setup:

The screenshot shows the 'Product Data' meta box for a 'Variable product'. The 'Product Data' dropdown is set to 'Variable product', indicated by a red arrow. The 'Variations' tab is active, showing a list of 5 variations with size attributes. The variations are: #574: S, #573: M, #572: L, #571: XL, and #582: Any Size... The 'Save Changes' button is visible at the bottom.

We have created 4 variations.
The variations can be found
in the "Variations" tab

Step #3: Integrate the Membership Levels to the Product Variations

As written in the introduction of this manual, using the Variable Products Add-On you can sell:

Local Memberships -Selling membership levels and / or pay-per-posts that are located on the same website as your WooCommerce store

External Memberships – Selling membership levels that are located on a different website than your WooCommerce store

In Step #3 we go over how to setup the Variable Products Add-On for both local and external memberships as you can see in the following pages.

Selling Local Memberships

After creating a variable product within WooCommerce and adding the relevant variations you need to integrate Wishlist Member memberships to the relevant variations.

1. Click to open the relevant variation's settings
2. Scroll down to the Wishlist Member – Local Level title
3. Choose the relevant membership levels and / or pay-per-post content

#574: S

Wishlist Member - Local Levels

Choose the level/s you want customers will be registered to after completing purchase (You can select more than one level using the CTRL or CMD keys)

Choose the protected posts / pages you want customers will be registered to after completing purchase (You can select more than one post / page using the CTRL or CMD keys):

Selling External Memberships

After creating a variable product within your WooCommerce website and adding the relevant variations you need to integrate the Wishlist Member memberships to the relevant variations.

In your WooCommerce website:

1. Enter the relevant variable product
2. Go to the Product Data Meta Box » Variations » Expand the relevant variation to edit its setting
3. Scroll down to the "Wishlist Member – External Membership Sites" settings as seen in the below screenshot:

Check the box

Wishlist Member - External Membership Sites

Fill in the membership product details from the external Wishlist Member website

Activate Membership Product ?

Wishlist Member API Key

Wishlist Member URL

Wishlist Member Level ID

Import external membership product settings

Import all membership product settings from any external Wishlist Member API by copy and paste the membership level information that displayed by using the [Wishlist Member WooCommerce Plus - Remote](#) plugin.

Import settings

Copy the code from the "Remote Access Add-Ons" settings as explained in the next page (no. 5)

4. Check the "Activate Membership Products" box:

Activate Membership Product ?

5. Import the Wishlist Member API, URL and Level ID from your membership site:

Login to your Wishlist Member membership site » Go to the WL Extensions menu » Wishlist Member WooCommerce Plus Remote Access » Membership Levels Products Tab » Choose the relevant membership level and copy the code:

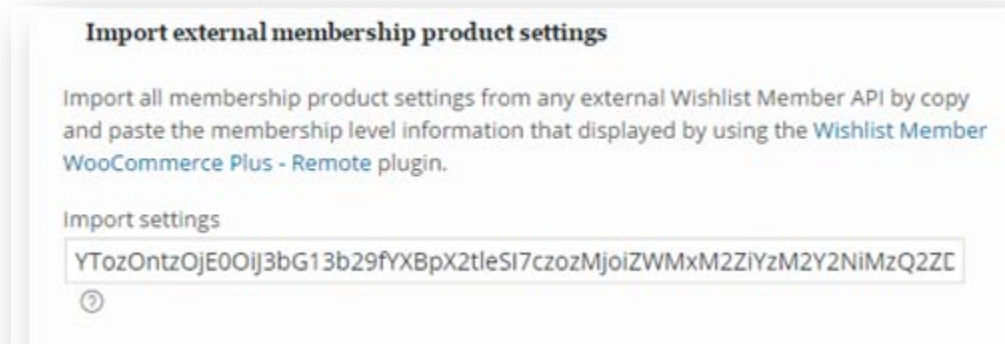

Levels Products Settings

Here are the settings of of each one of the levels on this Wishlist Member installation. Copy and paste this information into the WooCommerce product settings on Wishlist External Website tab.

Level Name	Level ID	Membership Product Settings
Level 1	1426921448	<pre>YTozOntzOjE0Oij3bG13b29fYXBpX2tleSI7czozMjoiZWxM2ZiYzM2Y2NiMz Q2ZDQ2YjQ0NDBiZjgxZTJkMDgiO3M6MTA6IndsbXdivb191cmwiO3M6Mjk6 Imh0dHA6Ly9zYW1wbGVibG9nLmluZm8vd2xtbmV3IjtzOjE1Oij3bG13b29f bGV2ZWxfYWQIO2k6MTQyNjkyMTQ0ODt9</pre>

Copy and Paste this settings into the import field to create a membership product for Level 1 inside WooCommerce product settings.

6. Go to your WooCommerce website and paste the code in the "Import external membership product settings" (and save changes)

After you save the changes you will see that the Wishlist Member API, URL and Level ID were added successfully (see next page).

This means that customers who will purchase that specific variation of the product inside your WooCommerce store will be automatically registered to the relevant membership level inside your membership site.

Wishlist Member External Membership Sites Integration

External Wishlist Member Product details are Correct

Fill in the membership product details from the external Wishlist Member website

Activate Wishlist Member External Membership Product

Wishlist Member API Key

Enter the Wishlist Member API from the external membership site

Wishlist Member URL

Enter the Wishlist Member website url from the external membership site

Wishlist Member Level ID

Enter the level id on the from the external membership site that you want this product to be associated with

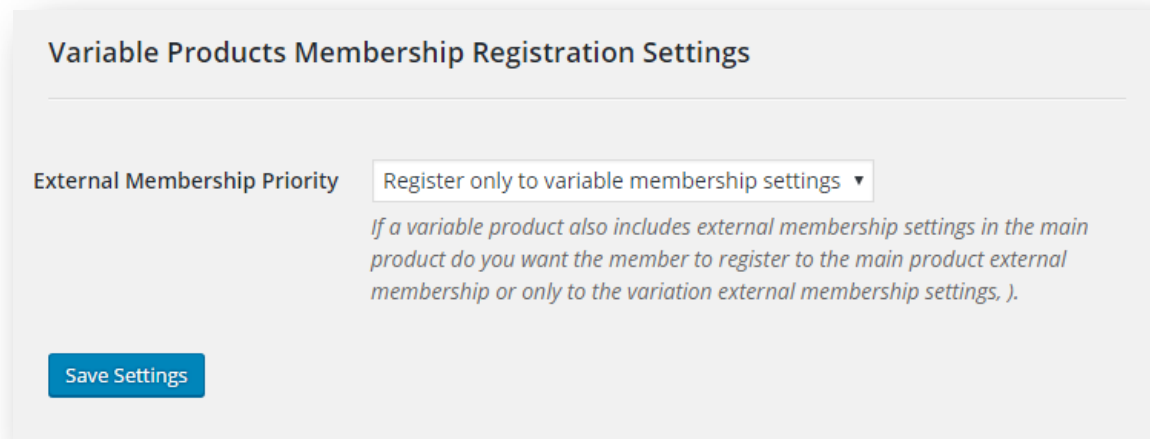

Import membership product settings

Import all membership product settings from any external Wishlist Member API by copy and paste the membership level information that displayed by using the [Wishlist Member Easy Digital Downloads Plus - Remote](#) plugin.

(All information in this field will populate the correct settings automatically)

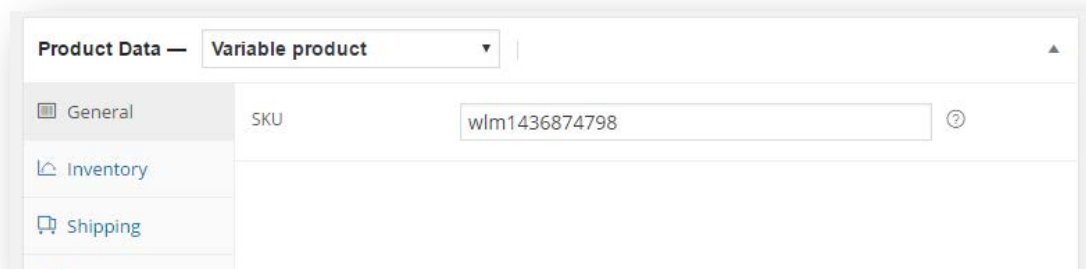

Step #4: Define the Memberships Priority (Relevant for External Memberships Only)

1. Within your WooCommerce store go to the Wishlist Member WooCommerce Plus plugin » Settings tab
2. Scroll down to the "Variable Products Membership Settings" as seen in the screenshot below:

The screenshot shows the 'Variable Products Membership Registration Settings' section. It features a dropdown menu for 'External Membership Priority' set to 'Register only to variable membership settings'. Below the dropdown is a descriptive text: 'If a variable product also includes external membership settings in the main product do you want the member to register to the main product external membership or only to the variation external membership settings,).' At the bottom left of the section is a blue 'Save Settings' button.

These settings allow you to decide whether to register the member **only** to the relevant variation/s or **also** to the main product as defined in the product itself under the Product Data Meta Box > General (see screenshot):

The screenshot shows the 'Product Data' meta box for a 'Variable product'. The 'General' tab is selected, and the 'SKU' field is visible with the value 'wlm1436874798'. Other tabs like 'Inventory' and 'Shipping' are also visible.

Step #5: Test the Registration Process

To test that the member is indeed registered to the membership level defined in the relevant variation follow these steps:

1. Copy the variable product URL you created and paste it in a new browser (Make sure you are not logged-in)
2. Choose the relevant variation from the drop-down and complete the purchase process
3. Login to your Wishlist Member membership site (in local memberships this would be the same website as your WooCommerce store) and check the customer was registered as a member to the membership level specified inside the variation

FAQS

What version of WooCommerce plugin I need in order the plugin?

You will need to use WooCommerce version 2.3 and higher

Can I use only the Variable Products Add-On without the plugin Wishlist Member WooCommerce Plus?

No, the Variable Products Add-On is an addition to the main plugin, you must also purchase Wishlist Member WooCommerce Plus for the add-ons to work.

Does the plugin have any conflicts with other plugins?

As far as we know, the plugin does not conflict with any other plugin. Wishlist Member WooCommerce Plus and all its add-ons keep a very strict code method so the chances that it's causing any problem are very low. If you have any problems or conflicts, please contact the support department.

Does the plugin integrate with every membership site platform?

No, Wishlist Member WooCommerce Plus is a Wishlist Member dedicated plugin.

I have more questions and I haven't found my answers, how can I contact you?

If you haven't found your answers in the product's page and in the guide, please contact [our support team](#) and we will get back to you shortly

About HappyPlugins

[HappyPlugins](#) was established in 2010 to develop plugins and extensions for the WordPress platform.

The majority of the plugins are developed as white label according to our clients' specific requirements.

In late 2010 we opened a new branch under HappyPlugins for developing Wishlist Member dedicated plugins called Wishlist Member Developers.

Our team here at [Wishlist Member Developers](#) develops commercial and custom plugins for the Wishlist Member platform.

Expertise

Our expertise includes:

- In depth knowledge and understating in the web industry
- UXI design and improvement
- Experience in traffic and media buying for large companies
- Subscription-based marketing and retention
- Conversions and flow design optimization
